| Note for 740, 760, 940, 960: These Volvos can have factory fitted self-levelling units. KONI recommend, however, just a damper or a load-a-juster. At the same time, the original springs must be substituted by springs supplied by KONI. These should be ordered additionally under part no. 3330-1102. | | | | | | | |
